

## PODIATRY CHAIR, ELECTRIC 215 KG

Electric with 4 motors, neck cushion, hand and foot controls and central locking castors.

**Strong - lifts patients up to 215 kg**

Tarsus' electric Podiatry and Chiropody chair is designed by Tarsus in close consultation with some of Sweden's most experienced and renowned teachers in Chiropody and Podiatry. The result is a practical, user-friendly, ergonomic and very sturdy chair.

With its 4 motors, the chair is easily adjusted to a perfect work posture.

Model for 215 kg.

### CE certification

CE certified according to **MDR**.

### Controls

The hand control has separate up/down buttons for 6 separate adjustments:

- \* The right legrest
- \* The left legrest
- \* Both legrests simultaneously
- \* The height of the chair
- \* The seat tilt
- \* Height, seat tilt and legrests simultaneously - very practical when re-setting the chair from highest position to the patient-step-off position after treatment.

### Chassis

All-welded powder-coated steel chassis with central locking castors. Electric height adjustment, sturdy construction.

### Seat tilt

Electrically adjustable. The chair may be tilted to Trendelenburg position.

### Pads

Foam plastic padding, artificial leather cover, high comfort. Available in many different colours to match the room decor. The backrest pad is available with an **aperture as option**, which makes it possible to use the chair also for massage therapy.

### Backrest

Manually adjustable with gas spring.

### Legrests

Individually adjustable by motors. The length and heel support adjusts manually. The working height at the heel is max ca 130 cm.

### Armrests

Very stable. May be folded backwards if the patient needs to get on/off the chair from/to a wheel chair or bed. Pad size 41 x 9 cm (L x W).

**control** is optional. Apart from the 4 up/down controls for separate adjustment of the 4 motors, the hand Control also includes a function that adjusts 4 motors simultaneously (the angle, height and both foot rests). It's meant as a reset button after a treatment is finished and the patient is to get off the table.

The hand Control can be stored hanging on included hooks on both sides.

### Seat tilt

Electrically adjustable.

## Facts

Article No: 010-5015

**May we send you an offer?**

*This is how it works:*

1) "Shop" like in any webshop.

2) Fill in some very basic contact info. The zip code is important to let us calculate freight.

3) Press "send".

*The offer, sent by e-mail if nothing else is chosen, is free of charge and any obligations. It will be sent to you as soon as we've received a freight offer from our freight contacts.*
