

## Vela Samba 150

Vela Samba 150 was developed with the Danish dentist Herluf Skovsgaard. The chair has a unique short, ergonomic seat with rounded corners and a heavily padded front.

### Seat

The short seat may be tilted forward helping staff to come very close to a patient. It's built on several different pad fillings, which increases the feeling of stability.

The seat's rounded front helps to good blood circulation in the legs also during long working days.

### Backrest

The narrow size gives an optimal support for the center of the back. Its shape gives free movement for back, shoulders and arms and provides a good comfort also for longer hours.

Since you can adjust the backrest also backwards, you may also sit in "the wrong" direction and work actively with the arm/arms resting on the armrest.

### Castors

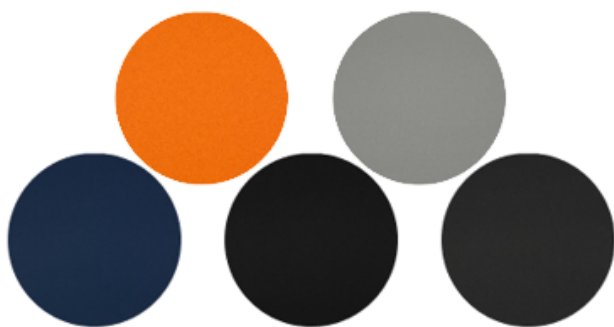

75 mm, two locking.

### Height adjustment

Adjusted in height by either hand or foot control.

### Artificial leather

The Compound artificial leather has a nice surface that doesn't feel slippery and sweaty. Black is standard, others available.

### Cleaning/disinfecting

Compound fulfil all high demands for medical use, with solutions up to 70-85% alcohol and chlore disinfection (1000-1200 ppm). After disinfecting, do a cold water wipe-off.

### Item

Vela Samba 150, hand control 44-64 cm  
 Vela Samba 150, foot control 44-64 cm  
 Vela Samba 150, foot control 55-81 cm
