

Combigyn

Combination of gynaecology and general examination table with 2 or 3 motors.

Designed in consultation with hospital professionals for a maximum patient comfort, user-friendly and ergonomic design.

Electrical adjustment of height and seat angle / Trendelenburg. Manual adjustment of the backrest as standard, motor for the front backrest as option.

Chassis

All-welded chromium-plated steel tubes, powder coating as option. Very sturdy construction with four lifting points. Adjusts very low and high to facilitate when the patient sits and leaves the table. Paper-roll holder is included.

Backrests

Two backrests, both for gynaecology and general examination positions, adjusted by gas spring. Easily accessible adjustment handles.

Trendelenburg/seat section

Electrically adjustable.

Seat pad

Not as wide as the rest of the table to help give access during gynaecology examinations. Easily removable pad, practical when cleaning.

Stainless steel tray

Included, pulls out and could be removed fully.

Pads

Pads covered in artificial leather stuffed with foam plastic. Several colors available to match the room decor. The pads are protected from bumps and damages by the steel frame.

Legrests

Very sturdy and fully adjustable, in a patient-friendly design. Moveable along the seat on an accessory rail. Easy to remove altogether, which helps when transferring a patient from or to a bed or wheelchair.

Patient handles

Accessories. Very sturdy, chrome-plated steel. Moveable along the seat on an accessory rail. Easy to remove altogether, which helps when transferring a patient from or to a bed or wheelchair.

Castors

Central locking 125 mm castors.

Cover/storage

The plastic cover has an integrated storage area, its design helps when cleaning.

Model 015-2050 plus patient handles 010-2033.

Model 016-2050 plus patient handles 010-2033.

Motors

220-240 V/24 V. Battery backup is not included but available as option against extra charge. Foot control is standard, hand control is available as option while double controls are available against extra charge.

Examination light

We can also provide with an examination light that could be mounted onto the Combigyn.
