

Magnifier luminaire Opticlux LED

OPTICLUX has everything a modern magnifier luminaire is meant to have: a robust magnifier with 1.9x magnification, the latest LED modules, ergonomically tested arm joints and intuitive operation. OPTICLUX's biggest plus is its daylight-quality light field, its outstanding color rendering properties and its maintenance-free life cycle.

As an approved medical device, it can be versatily used in dermatology, human medicine, dentistry and veterinary medicine, in laboratories and for monitoring sterilized products.

Color temperature daylight white 6 500 K
 Acrylic lens with 3.5 diopters
 Color rendering properties CRI > 93, R9 > 90, R13 > 95
 Bright, homogeneous light field
 Continuously dimmable
 Universal fastening
 Durable premium casing

Approved medical device compliant with EN 60601-1

Wall attachment

Floor stand

OPTICLUX with Wood light

Model especially suitable for dermatologists, veterinaries and for forensic medicine.

The wood light model combines two lighting modes in one device: daylight white illumination and Wood light. This means that different examinations can be performed with just one light.

Other Wood luminaires require the room to be completely darkened. Thanks to powerful BLB LEDs, the Opticlux doesn't need this, which means more time with the patient.

Optional Wood light: peak at 365 nm
